## PRODUCT CARE INTRUCTIONS:

- Do not dry clean.
- Do not wash in hot water.
- Do not use chlorine bleach or fabric softener.
- Do not wash whites and colors together or overload the washing machine.
- Avoid machine drying on high heat.
- Do not leave wet or damp garments in your travel bag, washing machine, or in a pile with other clothing.
- For new uniforms, we recommend washing in cold water and either hanging to dry or using the lowest setting on your dryer.
- Launder uniforms immediately after wearing.
- If immediate laundering is not possible, rinse garments and hang individually on rust-proof hangers.
- Contrasting color items such as belts should be washed separately.
- Always test wash a single uniform before washing an entire load.
- For heavily soiled garments, we recommend presoaking in cold water with a protein release agent.
- Follow the presoak manufacturer's instructions and wash immediately following the presoak.
- Wash and rinse all garments in cold water with mild detergent, and remove promptly after the wash cycle to prevent color migration.
- For best results, hang garments to dry, especially those with Spandex. If machine drying is necessary, use the lowest setting and turn jerseys inside out.
- Remove items from the dryer immediately upon completion of the cycle to prevent shrinkage, discoloration, and cracking and peeling of vinyl pastisol lettering inks.
- Make sure uniforms are completely dry before storing in a dry area to prevent mildew, and protect them from sunlight and fluorescent light to prevent yellowing.

Please note that failure to follow these instructions may void all guarantees, and Stimulus Athletic will not be responsible for any damage to uniforms due to improper care and maintenance.

## DO YOU CHARGE FOR DESIGN WORK?
