YOUR CUSTOM DESIGN IN 3-EASY STEPS

HOW IT WORKS

1

COMPLETE OUR DESIGN FORM

It all starts with our design form, where you can share your vision for your kit and upload relevant files such as logos, fonts, sketches, ideas, etc.

2

RECEIVE A DESIGN PROPOSAL

Once you submit your form, our team of design experts will dive into researching your club's history, style, and personality to create a kit that truly represents you.

In just **2-5 business days**, you'll receive a personalized design proposal from a dedicated account manager.

3

ORDER YOUR CUSTOM APPAREL

We provide our customers with two easy options for ordering: **Bulk Orders** or **Team Stores**.

With **Bulk Orders**, you can place a large order for your entire team all at once while the **Team Store** option allows each individual to order their own custom kit and products.

PRODUCT CARE INTRUCTIONS:

- Do not dry clean.
- Do not wash in hot water.
- Do not use chlorine bleach or fabric softener.
- Do not wash whites and colors together or overload the washing machine.
- Avoid machine drying on high heat.
- Do not leave wet or damp garments in your travel bag, washing machine, or in a pile with other clothing.
- For new uniforms, we recommend washing in cold water and either hanging to dry or using the lowest setting on your dryer.
- Launder uniforms immediately after wearing.
- If immediate laundering is not possible, rinse garments and hang individually on rust-proof hangers.
- Contrasting color items such as belts should be washed separately.
- Always test wash a single uniform before washing an entire load.
- For heavily soiled garments, we recommend presoaking in cold water with a protein release agent.
- Follow the presoak manufacturer's instructions and wash immediately following the presoak.
- Wash and rinse all garments in cold water with mild detergent, and remove promptly after the wash cycle to prevent color migration.
- For best results, hang garments to dry, especially those with Spandex. If machine drying is necessary, use the lowest setting and turn jerseys inside out.
- Remove items from the dryer immediately upon completion of the cycle to prevent shrinkage, discoloration, and cracking and peeling of vinyl pastisol lettering inks.
- Make sure uniforms are completely dry before storing in a dry area to prevent mildew, and protect them from sunlight and fluorescent light to prevent yellowing.

Please note that failure to follow these instructions may void all guarantees, and Stimulus Athletic will not be responsible for any damage to uniforms due to improper care and maintenance.

DO YOU CHARGE FOR DESIGN WORK?

NO, we offer **FREE** design services and are committed to making your ideas a reality. Our dedicated designer will help your team create the perfect custom designs that reflect your unique identity.

WE HAVE A DESIGN ALREADY, CAN YOU PRODUCE IT?

YES, we can bring your designs to life, but adjustments may be made to ensure they meet our production and branding guidelines. **This may include small modifications to colors and design elements.**

WILL THE COLORS MATCH THE PROPOSALS?

Please note that monitor colors may differ from the final printed colors due to differences in how light is emitted and absorbed.

However, rest assured that we are dedicated to providing you with the closest color for your products as possible. **If color accuracy is crucial for your design, please contact your designated account manager and request for a sample to ensure that you get the desired outcome.**

WHAT IS THE TURNAROUND TIME?

Our current turnaround time from payment to dispatch is **approximately 4 to 6 weeks**. Please note that **additional print applications and custom requests may add to the production time**. Our team works diligently to ensure that all orders are fulfilled as efficiently as possible.

If you have specific deadlines, please don't hesitate to reach out to your designated account manager to ensure that you receive your products on the desired time.
